THURSDAY, JUNE 7, 1894.

The Kentucky Press boys are enjoying life in Frankfort this week. They are having their annual outing.

WANTED—Democrats in job lots of otherwise to go into the democratic primary in August; also to act as mourners in November, after the returns are all in.

It is a case of nominating Mr. W. C. Pollard-Breckinridge in the Seventh district in order to rid this grand old Commonwealth of the stain and this out-of-date monstrosity.

The Grand Rivers Company, with all its millions of capital during its boom period a few years ago, was sold the other day for \$77,000. The year 1894 seems to be a great year for bargains.

The campaign in the Ashland Congressional district this year promises to be a very bitter one, and from the present outlook, one need not be surprised to hear of war and rumors of war between the three contestants—Breckinridge, Owens and Settle—before the question is decided at the Convention in September. Such disgraceful proceedings as may be looked for will double the present disgrace which is overhanging the Ashland District.

MAGISTERIAL DISTRICT NO. 2.

Pursuant to a call, the Republican voters of the Earlington district met at 2 o'clock Saturday, June 2nd, at Masonic Hall, M. McCord in the chair. After a few moments, an adjournment was made to 7:15 Saturday night in the same place.

A large meeting was assembled at night and Mr. McCord stated that it was necessary to elect delegates to the Nominating Convention to be held in Madisonville, Saturday, June 9, 1894. He stated that there were thirteen delegates to be sent from the town of Earlington—six from the Lake district, two from South-east Earlington and five from the North-east district of Earlington.

Mr. Marion McCord, on motion duly seconded, was elected to take the chair. He called for nominations for delegates to the convention and the following were placed upon the ticket:

Lake District—Wm. Finley, T. F. McCord, Paul Gordon, Herbert Sarrett, J. H. Offutt and Simon Dunlap.
South-east Earlington—Richard Morgan, George Robinson.
North-east Earlington—M. M. Croft, Riley Brown, T. N. Black, Geo. W. Halsey, and Thomas Vance.

The chairman stated that by the law the member of the executive committee in each district is chairman of the committee appointed for each district at this meeting.

A committee on resolutions was appointed consisting of the following citizens:

Dr. W. B. Gardner, M. M. Croft, Riley Brown, Simon Dunlap, Wm. Finley and W. F. Burr.

This committee retired, and after a short consultation presented the following resolutions:

Whereas, A crisis having been reached in the life of the Republican party in Hopkins county, it is met that we, who on this day in convention assembled—

Resolved, That as voters, who desire to see the principles of our party upheld, we ask that all encouragement shall be given our leaders, who are trying to arrange the lines of battle, so that all may be in order to win the victories which shall uphold the glory of the party of protection to American industries, the party which has proven, beyond doubt, its claim as the friend and protector of the American workman and the American farmer.

Resolved, That we cannot countenance the actions of those disorganized bodies of men, under such leaders as Coxey, who claiming the protection of our laws, yet encourage elements of lawlessness detrimental to the law and order of our communities.

Resolved, That we feel it is time that citizens of our country, without regard to party lines, protest against the apathy, which marks the course of those now in power, the distress incident upon the non action of the party now in power is appalling and calls for loud demands for a policy of active interest in the needs of the people of our country, to be inaugurated forthwith; so that a ray of hope for the future may shine in the hearts of the mechanic, the farmer, the laborer whose families are in destitute conditions, because of the paralyzed industries of our beloved country.

Resolved, That we hope and trust that in the light soon to be on us, an honorable warfare will be carried out; and we denounce the efforts of Democratic speakers, and its press to appeal to race prejudices.

Resolved, That we also in unfair statements and false promises, appealing often to the worst passions of voters, they often defeat their own purposes.

Resolved, That we, whose duty lies along the line of doing our part to see to it that the grand old party of Republicanism again wheels into line to the music of the noble avails industries, the tramp of happy workman, must insist upon our county ticket having nominated for each office a good, strong, faithful Republican. Thus with full strong tickets we can keep on the work of regeneration.

The resolutions were adopted as read.

PECULIARLY MADE. Dr. Pierce's Pleasant Pellets are made of refined and concentrated botanical extracts. They are different from the large old-fashioned pills for constipation. They are made in an improved chemical laboratory under the direct supervision of scientific men. Everything else being equal, the small or the size of a liver pill, the more comfort. They do not shock the system, but regulate, cleanse and tone up the liver, stomach, and bowels, in nature's own way. They're put up in sealed glass vials, easily carried in the vest-pocket.

In Bilious Disorders, Sick Headache, Constipation, Indigestion, Dizziness, or for breaking up sudden attacks of Chills, Fever, and Inflammation, "Pleasant Pellets" are prompt and effective in action.

Peculiar in the way they're sold, for they're guaranteed to give satisfaction, or your money is returned.

A great interest was manifested in the meeting, and some of the big guns of Democracy were present, as was manifested in their being too heavy for the seats, which could not withstand their avoirdupois, so fell to the floor. The meeting then adjourned.

The importance of a thorough organization of the Republican party being perfected at the Delegate Convention, which will be held in Madisonville on next Saturday, is of great value to the party in this campaign. In unity there is strength, and with a thorough organization the Republican party can elect a full ticket of County officers this year. Now let every Republican in Hopkins County awaken to a sense of duty, make it your special duty to give unto the party your valued assistance in the coming battle of ballots, and success will be ours and a new era in the prosperity of old Hopkins will surely come.

RECHOS FROM TOOMER. Last Friday night a cow belonging to Mrs. Irene Hoover, near Clear Run, gave birth to three well developed calves. They were all dead when found Saturday morning, but were perfect in every respect. The hides were taken off and weighed five pounds each. The mother of these wonderful freaks is just an ordinary, honest cow, seven years old, will weigh about 900 pounds and regrettably, as all of us do, that death robbed her of her young brood.—Hartford Herald.

We arise to ask if a cow of such a plural progeny proclivities could be consistently called an "ordinary cow." The worth and value of such a bovine can only be determined by the "rule of three."

Mrs. Judge Peck Tells How She Was Cured

Sufferers from Dyspepsia should read the following letter from Mrs. H. M. Peck, wife of Judge Peck, a Justice at Tracy, Cal., and a writer connected with the Associated Press:

"I have received from the use of Hood's Sarsaparilla, a justice at Tracy, Cal., and a writer connected with the Associated Press. I have been led to write the following statement for the benefit of sufferers who may be similarly afflicted. For 15 years I have been a great sufferer from dyspepsia and heart trouble.

Almost everything I ate would distress me. I tried different treatments and medicines, but failed to realize relief. Two years ago a friend presented me with a box of Hood's Sarsaparilla. The first bottle I noticed helped me, so I continued taking it. It did not so much good that my friends spoke of the improvement. I have received such great benefit from it that I can only recommend it.

I now have an excellent appetite and nothing I eat ever distresses me. It also keeps up my strength and health.

National Capital.

[From Our Regular Correspondent.]

WASHINGTON, June 4, 1894.

The bribery scandal in the Senate reached a natural end. The exonerating report of the investigating committee was an expected sequel to the facts. The known facts, upon the strength of which the investigation was ordered, were flimsy and simple. A man named Butts is said to have approached Senator Kyle and the son of Senator Hunton, and to have intimated to them that a vote against the Wilson bill would be worth \$25,000 to the Senator casting such a vote. The man himself, when put upon the witness stand, testified that he went no further than to say that, in his opinion, certain manufacturers in the country would be very glad to club in and pay \$25,000 each for votes enough to beat the bill—a statement which can readily be credited.

After Butts, the "scapegoat," came three or four newspaper correspondents with cock and bull stories of various degrees of flimsiness. One of them was told by a nameless gentleman from New England that he heard some man talking in the next room to his in a hotel; that he recognized several of them by their voices as distinguished Senators, and that he overheard the details of a plot to beat the Wilson bill. Of course, the name of the New England manufacturer is not disclosed. Altogether, the ascertained facts make a very beggarly array alongside of the sumptuous banquet of roof-back and conjecture to which this short-lived scandal has summoned. The surprise is that the matter has been treated so patiently by the Senate.

ELECTROPOISE.

I am delighted with the Electro-poise. It has cured me of rheumatism, insomnia and constipation. Have also found it effective in croup and bilious colic. Nothing would tempt me to part with the little instrument. I sometimes call it "tired nature's sweet restorer." Often when tired after some unusual exertion I use it for an hour and feel afterward as though I had taken a tonic. Yours truly,

ST. VITUS DANCE.

The Electropoise makes the patient dance for joy, that this annoying and serious disease has been cured.

My little girl had an attack of St. Vitus' Dance last year, and by careful attention and medical treatment was relieved, still her health was not good, and the attack returned this spring. We gave the Electropoise a trial, and it gave her great benefit, curing her quickly, and her health is better than usual. We are very much pleased with its effects. Mr. A. R. Jones and his wife have received great benefit from the use of the Electropoise. Yours truly,

The speech of Gorman, anent the tariff, has a peculiar significance to those familiar with the ways of legislation. The significance lies more in the fact that he has spoken than in what he has said. His appearance in the attitude of a leader is a proclamation always to those familiar with the men and methods of the Senate that a climax has been reached, and that a settlement is close at hand. During all the period of uncertainty, conflict and apprehension, Gorman preserves the silence of the Sphinx, staring with steady gaze in search of the secret spring which will set things in orderly motion. Then, when he speaks, it is in the voice and manner of an oracle. His love of the impressive and dramatic is widely appreciated, and it is known, too, that he aims always to appear in the attitude of a leader just at the moment when the end is at hand. In announcing complete unity of purpose on the part of the Democrats, Mr. Gorman ignored Hill, and this in strict accordance with the sentiment of his associates who decline to regard Hill as a Democrat and to take him into consideration.

The adoption of Quay's amendment to the metal schedule, the impassioned speech of Mr. Teller, lecturing speech of Gorman, are all significant of the approaching end, and it is so recognized on both sides of the Senate chamber. Mr. Teller is not alone in his determination not to filibuster against the determination of the majority. Other Republican Senators have announced their belief that uncertainty is worse than the worst tariff bill would be which the Democrats have attempted to frame. Under the circumstances there is now little reason to apprehend exasperating delay. There will, of course, be discussion on some of the schedules. But the chances are that, in a few weeks, the work of the session will be ended, and McKinley's bill will be superseded by a less protective measure. Industries that are now paralyzed by apprehension will probably then "take up the burden of life again," and capital now idle can flow into the channels of business.

The very large section of the World's Fair which was temporarily loaned to Chicago by the national government is again in Washington. The museums and public buildings are filled to overflowing. The similarity of Washington to the marvelous White City is not confined to mere exhibits. The public buildings, from the attractive War, State, and Navy Department Building at the upper end of Pennsylvania avenue to the noble Capitol at the other end, present a succession of magnificent stone structures, surrounded for the most part by miniature forests or elaborately decorated grounds. The observant and knowledge-seeking tourist can wander to and from and in and out of these buildings at will, always learning and always being entertained. Just now, especially, in its spring attire, Washington is more beautiful than any other City in the country, and the capital of the United States is in reality a continual World's Fair.

Mrs. Cleveland and her children have returned to the White House from Buffalo. What the Presidential family's plans will be for the summer is a matter not yet determined definitely. If present indications of the utter collapse of the Coxey nuisance continue, the President and his family will probably occupy their suburban home at Woodley until the adjournment of Congress enables them to go to Gray Gables for the months of August and September.

Unless Mr. Thomas Reed proceeds to make a little noise there is danger that his quorum-counting device may be forgotten.
